

WILN OCCUPIED.

Japs Take Possession of a Town Without Opposition.

Friction Between Prince Kung and Li-Hung Chang Inevitable.

The Victory Will be Hammered in His Operations Against the Japanese in the Comandary Department, and the Troops Demoralized.

LONDON, Oct. 2.—A dispatch from Shanghai to the Central News says that the Japanese have occupied Wiln without meeting with any opposition on the part of the Chinese troops.

Friction between Prince Kung, the emperor's avuncular appointee to the presidency of the Tung Li Yamen (the foreign board), and Li-Hung Chang, the dispatch says, is inevitable. The victory is certain to be hampered in his conduct of operations against the Japanese.

The imperial council is completely demoralized, and the discontent which has prevailed in the commissary department for years has left the troops with no suitable clothing and a scanty supply of food. The Japanese have other manna of war, which from time to time were alleged to have been bought and paid for, can not now be found, and presumably the money represented to have been expended for them was appropriated by the officials to whose hands it was intrusted.

The immense camp between Tien-Tsin and Taku is filled with raw levies of troops, who are without arms, and in many cases, without uniforms, and are being sent to cover them. Disorder in the camp is rampant, there being not the slightest degree of discipline. Excesses take place daily, the troops are infatuated with wine and are being punished by the loss of the offender's head.

Europeans in China are taking refuge in the treaty ports under the protection of the warships of their respective countries. Large numbers of Chinese merchants are also seeking safety in flight. Their goods are being seized, and in many cases, men of large means have been plundered of every vestige of property they have accumulated, and otherwise maltreated if they protested. Most of these have also made their way to the treaty ports.

The troops stationed at Canton have been ordered to Formosa.

The Pail Mail Gazette publishes a dispatch from Shanghai stating that the Japanese troops are reported to be nearing Monken.

No Chinese soldiers are now in Korea, all of them being concentrated in the vicinity of Monken and Hung Chang.

Chinese transports have gone to Hanow for troops. It is reported that Tacki Sheng has been found to be implicated in furnishing information regarding Chinese movements to the Japanese authorities.

BIG PAPER MILL DEAL.

An English Syndicate Takes All Along the Fox River.

APPLETON, Wis., Oct. 2.—The great syndicate deal since the purchase of the American breweries by English capitalists has just been concluded, and unless something unforeseen occurs all the paper and pulp mills on Fox river will go to the hands of an English syndicate on April 1.

It is learned from parties interested in the sale that every paper and pulp mill on Fox river, with two exceptions, has signed a contract giving options on all mills, machinery, water rights, leases, and other property. The option is good for six months from October 1. The two firms who have not yet signed have agreed to do so Monday. The reason for the delay is to gain time to complete schedules of the property which must be attached to the options when delivered to the syndicate in London. The properties involved in the deal include twenty-nine paper and pulp mills, and pulp mills situated at Neenah, Menasha, Appleton, Kimberly, Little Chute, Kaukauna, Combined Locks and De Pere along Fox river for a distance of twenty-five miles.

The value of these plants is estimated at \$10,000,000. The daily product of the mills is about 1,300,000 of paper in a sheet seven by six inches wide, and 300 tons of pulp. The value of the pulp is about \$50,000 daily. The mills produce a large quantity of water rights and leases, and the earnings of the mills as shown by past business records. The payment for the purchase of the mills will be made in three year notes to be secured by mortgages on the mills and power. The deal has been worked up by Frank Butterworth of Chicago, who has been on foot several weeks. In the management of the business under the new proprietors the present active owners will be retained as managers, as also are the heads of departments in the mechanical portion of the mills. The great bulk of the mills are in local departments. An office will be established at Chicago in which the business of the mills will be transacted. The terms of the deal will be established there from which all sales and shipments will be made. In this way the cost of marketing the product of the mills will be reduced to a small fraction of the present cost.
